

Fly the Indoor Airport

At this fly-in event, pilots will practice their communication skills while maneuvering around the Indoor Airport. The Indoor Airport is a role playing simulation created by the FAA to allow pilots to practice their communications skills in a safe environment while communicating with controllers during departure, arrival, taxi and takeoff. There will also be a real airplane available to sharpen your preflight skills, and stations set up to test your aeronautical knowledge.

Directions: Take South Commercial Street (Highway 99) out of Emporia for 5 miles. The airport is on the right.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
